PROFILE

A dedicated and well-rounded individual seeking opportunities to further enhance my skills and contribute to the field. With a proven track record in academics, leadership, and community service, I aim to bring my unique blend of talents and commitment to any role I undertake .

EXPERIENCE

DevOps/FullStack developer Project Leader

2022 - NOW

A large IAM project required an intuitive interface for role-based access and rights management. At the same time, new workflows for role based access, life time and monitoring had to be established.

- Creation of a web portal for role- and rights management
- Establishing a connection to a live database

Technologies include:

- ASP.NET MVC Framework
- Angular for the easy front-end interaction
- HTML5/CSS3/Bootstrap3 for the front-end
- MS SQL Server

ACHIEVEMENTS

- Member of the invite-only Golden Key International Honours Society
- Amongst top achievers in class
- Advanced to penultimate round of National Programming Olympiad (2021)
